

EXPLANATION

Outcrop of coal beds dashed where inferred
Heavy line indicates Knoblock coal bed
Light line indicates other beds

Clinker Dotted line shows inferred contact with coal

Overburden less than 60 feet

Overburden 60-90 feet thick

Overburden 90-120 feet thick

Overburden more than 120 feet thick

Fault, dashed where approximately located
U, upthrown side, D, downthrown side

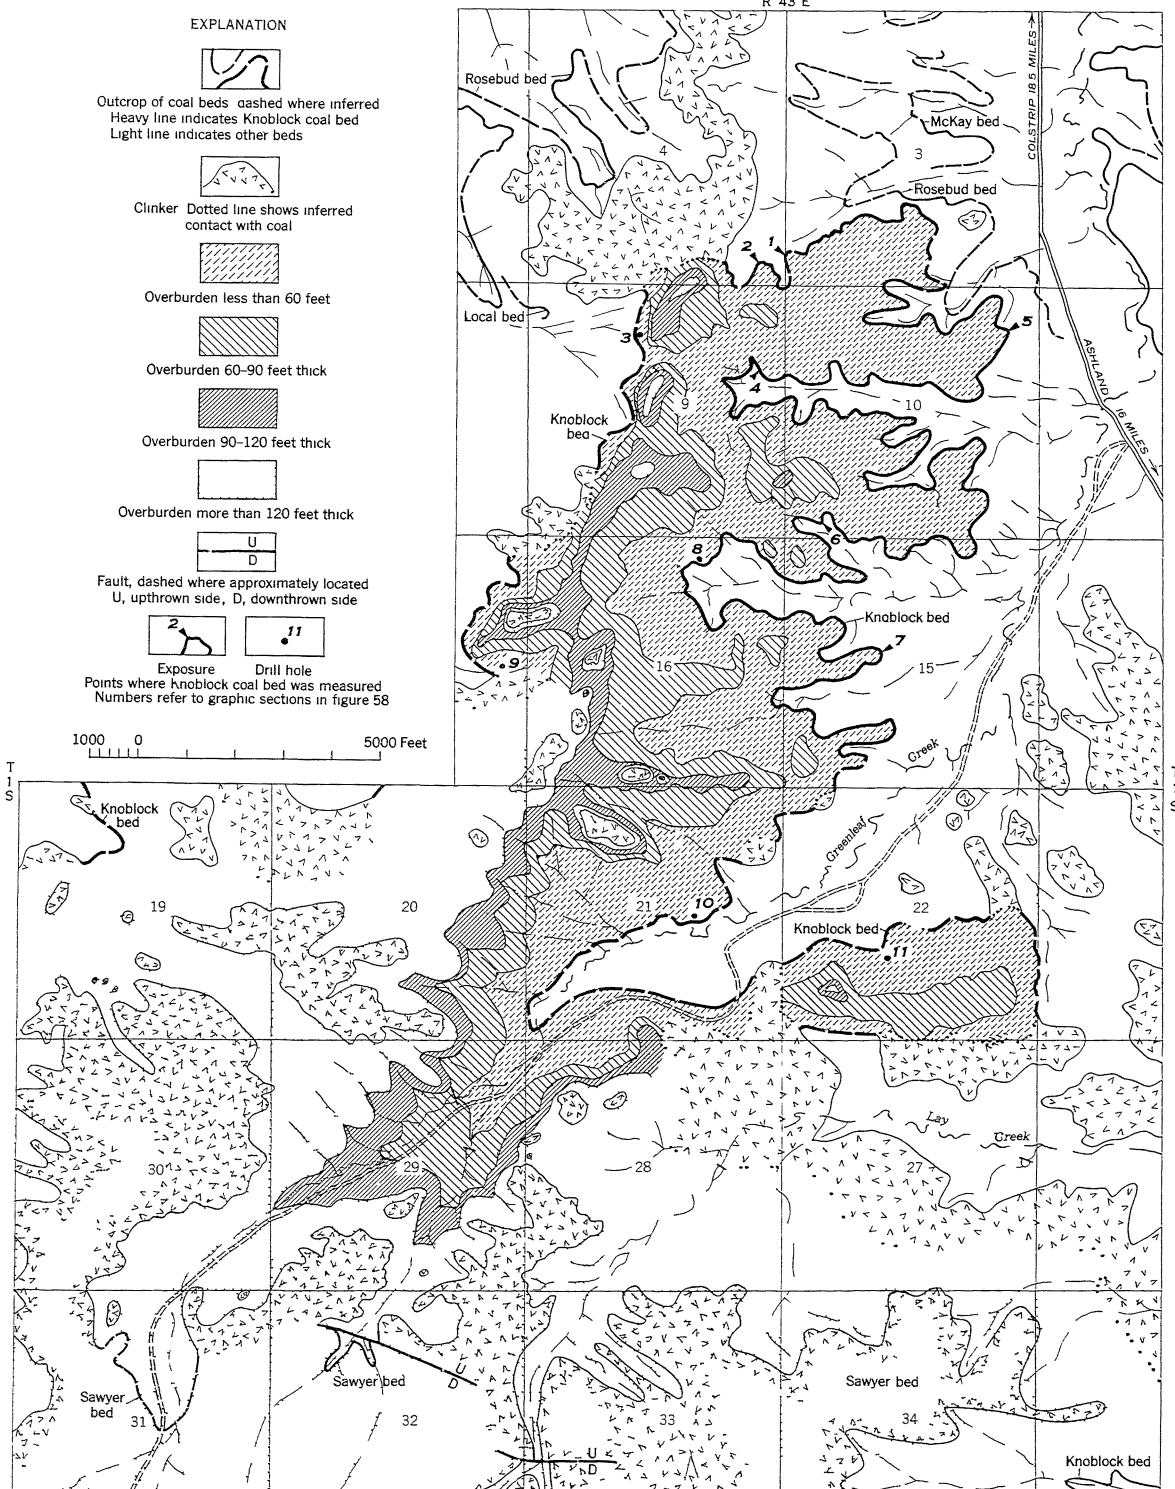

Exposure

Drill hole

Points where knoblock coal bed was measured
Numbers refer to graphic sections in figure 58

1000 0 5000 Feet
